SKILLS

- **Agentic AI & Automation:** OpenAI Agents SDK, n8n (Certified No Code AI Agent Builder), Agentic Workflows, Python Automation.
- **AI-Assisted Development Tools:** Claude Code, Gemini CLI, Qwen CLI, Speckit Plus.
- **Frontend Development:** Next.js, TypeScript, React.js, Tailwind CSS, HTML5, CSS3.
- **Programming Languages:** Python, C++, Java.
- **Graphic Designing:** Adobe Illustrator and Canva
- **CMS & Tools:** WordPress, Git/GitHub, VS Code.
- **Soft Skills:** Analytical Problem-Solving, Adaptability, Project Management, Creativity & Research Skills

EDUCATION

Bachelors of Science in Artificial Intelligence

Sep 2024 - Expected June 2028

Bahria University Karachi Campus

- DSA (C++), OOP (Java), Python, DCN, Linear Algebra, DM, DBMS, Probability and Statistics

Certified Cloud Applied Generative AI Engineer

Feb 2024 - Present

Governor Sindh Initiative for Artificial Intelligence

- Agentic AI systems, Python programming, and Frontend integration with AI.

EXPERIENCE

Agentic AI Internship | Nexe-Agent

Remote | May 2026 – June 2026

Engineered single and multi-agent autonomous systems utilizing the OpenAI Agents SDK integrated with OpenRouter models.

Campus Ambassador | DataCrumbs

Remote | May 2026 – Present

Drive university-level tech community engagement and promote data-focused resources among peers.

Generative AI Internship | Arch Technologies

Remote | Mar 2026 – Apr 2026

Built and optimized generative AI pipelines utilizing Whisper and local inference models like Ollama for advanced data processing.

PROJECTS

- **Nike eCommerce Website** — Next.js, TypeScript, Tailwind, Sanity, Built responsive eCommerce app with CMS integration and cart functionality using local storage.
- **Python Projects (25+)** — Python, Created multiple games and utilities (e.g., Hangman, Minesweeper) applying OOP and core programming concepts.
- **Hospital Management System** — Java, JDBC, Swing: Built desktop system managing patients, doctors, and billing with database integration.
- **Full-Stack To-Do App** — Next.js, FastAPI, NeonDB, Claude Code, Qwen, Speckit, Developed full-stack task management app with AI-assisted development and efficient backend integration.
- **AI & Humanoid Robotics Documentation Book** — Docusaurus, Claude Code, Created a structured documentation website focused on AI and humanoid robotics with AI-assisted content generation.

ADDITIONAL INFORMATION

- **Languages:** Urdu (Fluent), English (Intermediate)
- **Certifications:**
 - n8n Course: No Code AI Agent Builder Simplilearn SkillUP | Issued Aug 2025
 - WordPress Training (DSTP 2.0) DigiSkills Training Program (Ministry of IT & Telecom, Pakistan) | Issued Oct 2024
